ROSMOX AI

RETAIL & SHOP SOLUTIONS

BILLING · STOCK · WHATSAPP

Run your shop. *Not the paperwork.*

A simple billing and product management system for your store, with bills, stock alerts and customer messages sent on WhatsApp and email.

SOUND FAMILIAR?

The counter is busy. The *back office* shouldn't be.

Most shop owners lose hours every week to handwritten bills, guessing stock and chasing customers. We replace that with one easy system your staff can learn in a day.

Bills by hand
Slow at rush hour, easy to get wrong, and hard to find later.

Stock is a guess
You find out an item ran out when a customer asks for it.

Customers drift away
No easy way to remind them, thank them or share new offers.

No clear numbers
Hard to tell what sold, what's slow and how the month went.

WHAT WE SET UP FOR YOU

Fast billing
Create GST-ready bills in seconds, take any payment mode, and print or share them instantly.

Product & stock management
Every product, price and quantity in one place, with alerts before something runs out.

WhatsApp & email
Bills, payment reminders, order updates and offers reach customers on WhatsApp and email automatically.

Reports you can read
Daily sales, best sellers, slow movers and profit, in clear reports you can check from your phone.

AT THE COUNTER

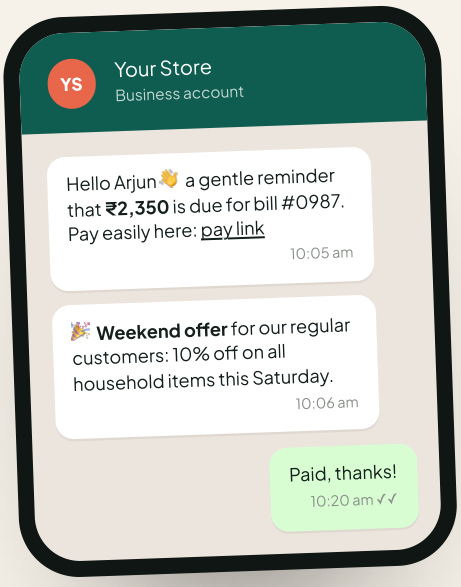

Faster billing, *fewer mistakes.*

- Search or scan products, and prices fill in on their own
- GST, discounts and offers calculated correctly every time
- Cash, UPI and card in one bill
- Print on your receipt printer or send as a PDF

Products · Stock

Stock overview — 3 items running low

AFTER THE SALE

Stay in touch *without the effort.*

Your system talks to customers on the apps they already use, so you don't have to type every message by hand.

- Bills and invoices sent on WhatsApp and email
- Payment reminders for credit customers
- Order-ready and delivery updates
- Offers and festival greetings to your customer list

AT THE END OF THE DAY

WHY ROSMOX AI

Made for your shop

No one-size-fits-all software. We shape the system around how you already sell.

Simple for your staff

Clean screens and short training, so the counter keeps moving from day one.

Grows with you

Add a second counter, a new branch or online orders when you're ready.

LET'S TALK

See it working with *your own products.*

Tell us about your shop and we'll show you how billing, stock and WhatsApp updates would work for you. No obligation.
