BUSINESS EMAIL & CUSTOMER COMMUNICATION

# Communication that fits your business.

Give your team a professional starting point and make it easier to keep customers informed.

## Email with your business name

Set up addresses using your own domain, so customers recognise your business when you reply.

## Google Workspace setup

Help setting up Google Workspace and creating the email accounts your business needs.

## WhatsApp & email connections

Connect agreed customer updates to your website or business system, based on your workflow.

## A practical handover

Get your team started with the agreed accounts and setup, with next steps for ongoing management.

**For businesses setting up a team, refreshing their presence or connecting customer updates.**

### Plan

Agree accounts and needs.

### Set up

Configure and check the setup.

### Connect

Introduce the agreed workflows.

## Put your business name in every conversation.

Tell us about your team, domain and the updates you want to simplify.
